

**STAY ENERGIZED  
GO FASTER**

AYSO LUBES has been setting the standards for continuous innovation, research and development and consistency in delivering world-class products in the lubricants industry. For over two decades, AYSO has been the leading total lubrications solution provider creating dependable energy efficient products engineered to enhance productivity across industries.

With a growth rate of 20% annually, AYSO LUBES, is one of the fastest growing companies in the UAE. Equipped with state-of-the-art production facility, AYSO LUBES is one of the regions largest manufacturer of lubricants with a comprehensive line of leading edge premium lubricants ideal for use in a diverse range of industries.

Exporting to over 25 countries in 4 continents, AYSO LUBES branded lubricants have made a profound mark in the lubricants industry.

VARIETY - STABILITY - QUALITY - RELIABILITY : By combining these core attributes, we continuously increase our value to our customers. No matter how our customer's needs are specific or challenging, our teams of experienced lubricants specialists study and propose a complete solution that best fits the requirement. We also have the flexibility to tailor make our products as per your needs.

We realize that customer loyalty is our lifeline. Customer service is top priority and that starts with our culture and every AYSO product is backed by the first-class service and support you expect from an industry leader and a dedicated team to provide information and assistance.

With a state of art warehousing and logistic infrastructure, we provide our customers with timely and ready solutions helping our clients experience the AYSO advantage.

AYSO LUBES - leading the way in high performance lubricants!!!

## AYSO Motor Engine Oil (Fully Synthetic)

AYSO Synthetic lubricants offer superior performance for the higher power and speeds in today's engines. It delivers extraordinary lubrication in all types of automotive gasoline engines. Its unique and proprietary formula helps your vehicle maintain maximum horsepower by reducing harmful deposit formation.

## AYSO Motor Engine Oil (Semi Synthetic)

AYSO is a semi-synthetic lubricant specifically formulated to meet high performance requirements of the latest model car and trucks. AYSO is superior to conventional oils as it exhibits a higher viscosity index, better thermal and oxidation stability as well as lower volatility. AYSO is fortified with unique phosphate esters.

## AYSO Motor Engine Oil (MINERAL)

AYSO is a high quality motor oil intended for use in passenger cars that have normally aspirated engines or turbo-charged engines. These oils are most suitable for new cars and light trucks that require multi-grade properties. It meets and exceeds the requirements of API SJ/CF as well as the G5 and PD2 requirements of CCMC/ACEA. It also exceeds the car manufacturers engine oil performance criteria. AYSO motor oil is specifically designed to provide extra protection against corrosion, oxidation, sludge and rust. The built-in viscosity improver protects in extreme weather conditions.

## AYSO Fully Synthetic 4T Engine Oil

AYSO Fully Synthetic 4T Engine Oil is high performance advanced synthetic blend technology four-stroke motorcycle engine oil developed to provide boosted engine cleanliness and protection for all types of motorcycles and operation. The unique synthetic blend formulation enables them to offer advantages beyond conventional four-stroke engine oils of similar viscosities.

It offers excellent flow characteristics at low temperatures to help reduce engine wear at start-up, and provide outstanding resistance to oxidation at high temperatures.

AYSO Fully Synthetic 4T Engine Oil is specially formulated to meet the requirements of all leading engine manufacturers and provides optimal protection against wear under high-temperature and high engine speed conditions.

## AYSO 4T Engine Oil

Premium 4-Stroke motorcycle engine oil specially designed to give superior protection and performance even under extreme conditions. These oils are specially designed for high temperature operating conditions providing optimum performance even in these tough city driving conditions. These oils provide outstanding oxidation and wear protection for extended oil engine life, minimize engine deposits due to excellent sludge and varnish control. Its anti-wear additive system reduces wear of highly stressed engine and gearbox components under severe operating conditions and improves engine and gearbox durability.

- Superior performance and smooth ride by active prevention of friction.
- Superior protection of gears during frequent gear changes.

Recommended for use in all 4-stroke 2-wheelers with manual gear operation.

## AYSO Diesel Engine Oil (Fully Synthetic)

AYSO Fully Synthetic Diesel Oil -Synthetic lubricant is the premium choice for API CJ-4 emission-quality diesel oil required by model-year 2007 and newer diesel engines. It delivers extraordinary lubrication in diesel engines found in commercial, fleet and personal vehicles. Built with the latest additive and synthetic base oil technology, it exceeds the higher performance demands of modern engines. It withstands the stress of heat, soot and acids to help prevent deposits, wear and corrosion.

## AYSO Diesel Engine Oil (Semi Synthetic)

AYSO semi Synthetic Diesel engine oil is manufactured to provide premium performance in diesel automotive engines used in heavy industries. It provides excellent all weather protection and controls the emission in high speed engines. It is blended with the latest additive technology and recommended by OEM'S for use in European, American & Japanese manufactured engines.

## AYSO Diesel Engine Oil ( MINERAL)

AYSO Long Drain diesel engine oil is manufactured to provide premium all round performance in diesel engines used for the road transport and construction industries. It provides excellent all weather protection and controls the emissions in high speed engines. It is blended with the latest additive technology and recommended by OEM'S for use in European, American and Japanese manufactured engines.

## AYSO Pumpfluid hydraulic oils

AYSO Pumpfluid hydraulic oils are formulated using the best quality mineral base stocks available. It imparts excellent resistance to oxidation demanded by sophisticated Hydraulic systems. AYSO Pumpfluid hydraulic oils provide outstanding high-temperature stability, longer drain intervals, and clean operation of equipment. Also suitable for a wide temperature range and applications. Serves as multi-service lubricant in Hydraulics, Circulating systems, and Air Compressors.

## AYSO Ashless Hydraulic Oils

Anti-wear hydraulic fluid formulated from severely hydrotreated mineral oils and an ashless additive system that provides superior oxidation stability, water separability, foam suppression and protection against wear, rust and corrosion. Specifically designed for use in environmentally sensitive areas.

## AYSO GEAR OIL ( MINERAL)

Are formulated for all heavy and medium applications. It provides optimum protection. AYSO GEAR Oils uses sulfur-phosphorous type mild EP gear lubricants designed for use in spiral bevel and hypoid differentials, power dividers, and oil-lubricated steering axle wheel bearings. AYSO gear oils are suitable for all manual transmissions, transaxles, transfer boxes and steering gears in automotive and agricultural equipment which require API GL-4 level of performance. These Oils are formulated to have good load carrying capacity, resist oxidation, foaming, and oil thickening.
